PROFILE

Informatics Engineering student at Bakrie University with experience in data analytics, web analytics, and technology-driven projects. Skilled in analyzing user data, identifying trends, and translating findings into actionable insights. Experienced in data analysis, dashboard reporting, database systems, and software development. Demonstrated leadership and project management experience managing cross-functional teams and organization-wide programs. Interested in applying technology and data to support business decisions

EDUCATION

Bakrie University *Jakarta, Indonesia*

B.S. in Informatics Engineering, Current GPA: 3.39/4.00 *Expected Graduation: 2027*

Relevant Coursework: Software Engineering, Database Systems, Data Warehouse & Mining, Artificial Intelligence, IT Project Management, Human-Computer Interaction, Information Security, Object-Oriented Programming

EXPERIENCE

DigiLAB Persada — Digital Marketing & Web Analytics Intern *Denpasar, Bali, Indonesia (Remote)*

January 2026 – May 2026

- Analyzed website traffic, user behavior, and marketing performance data using Google Analytics to identify trends, monitor KPIs, and produce weekly and monthly reports
- Collected, cleaned, and interpreted web analytics data to identify performance patterns and support data-driven recommendations
- Conducted keyword research, competitor analysis, and website performance evaluation using multiple analytics tools to identify business and market opportunities
- Collaborated with the digital marketing team to translate analytical findings into actionable recommendations for hospitality clients across Bali and Lombok

Bakrie University — Teaching Assistant, E-Business & Web-Based Programming *Jakarta, Indonesia*

Lab Instructor *September 2025 – December 2025*

- Delivered ten weekly laboratory sessions for fifth-semester students, covering topics ranging from BMC and BPMN modeling to PHP OOP, MVC architecture, Node.js, and RESTful APIs with JWT authentication
- Worked with the supervising lecturer to translate course material into structured weekly assignments and practical exercises
- Tracked attendance, graded lab reports, and compiled a complete session archive for institutional records

PT Solusi Digital Kreasindo — Information Technology Intern *Jakarta, Indonesia*

Semester Break, 2024

- Designed and developed company websites using Sitejet, WordPress, Jimdo, and Figma, creating responsive and user-friendly interfaces
- Customized website layouts, managed website content, and implemented front-end updates to support business requirements
- Participated in internal Tableau training and developed foundational skills in data visualization and dashboard creation
- Collaborated with the IT team to deliver website development tasks and ensure timely project completion

Hanging Gardens International — Junior Data Analyst *Denpasar, Bali, Indonesia*

June 2023 – September 2023

- Conducted market, competitor, and performance analysis to support data-driven content and marketing strategy
- Analyzed keyword trends and website performance using Google Trends, Google Ads, Ahrefs, and SEO analytics tools to identify growth opportunities
- Synthesized market and performance findings into actionable insights for content strategy and audience engagement

TECHNICAL PROJECTS

Phishing URL Classification Using XGBoost *Data Warehouse & Mining Course*

- Co-authored a research paper applying XGBoost to classify phishing URLs based on structural features and evaluated the model's ability to distinguish potentially malicious URLs
- Evaluated model performance using accuracy, precision, recall, and F1-score to assess classification effectiveness

TRUSTFOUND — Campus Lost-and-Found Platform *Team Project*

- Enhanced an existing campus lost-and-found web platform by implementing email broadcast notifications and QR code validation for secure item collection during the Software Engineering course
- Produced software engineering documentation, including SRS, SDD, FPA, STD, and SCD, to support system development and testing

T.R.E.N.D.I.F.Y — Weather- and Mood-Based Outfit Recommender *IT Project Management Course*

- Developed responsive front-end features using HTML, CSS, and JavaScript for a weather- and mood-based outfit recommendation web application, as part of a five-member Agile development team

LEADERSHIP & ACTIVITIES

Informatics Engineering Student Association (HMTIF), Bakrie University *Jakarta, Indonesia*
General Chairperson *2025 – 2026*

- Led four departments and supervised the execution of organization-wide academic, technical, and professional development programs
- Rebuilt coordination with the Student Affairs Bureau, BEM, Senate, and partner departments' associations, securing approval for every proposed program through consistent, on-time submissions
- Oversaw flagship initiatives including OASIS student orientation, COMPILER XVI (an inter-school competition in UI/UX design, Debian, and Cisco networking) paired with the SEMANTICS seminar, TGTC company visits to GoTo Company and PT Bentara Nusantara (BETA), an inter-university exchange with UPN Veteran Jakarta and UIN Jakarta, and SYNC WITH US leadership training for the incoming board
- Successfully completed the organization's annual work programs and leadership transition, as recognized in the university Senate's year-end evaluation (July 2026)

Informatics Engineering Student Association (HMTIF), Bakrie University *Jakarta, Indonesia*
Deputy Treasurer II *2024 – 2025*

- Prepared budget plans (RAB) across multiple concurrent work programs while concurrently serving as event coordinator
- Balanced two overlapping roles without missing deadlines by completing work well ahead of schedule, leaving room for review
- Managed budget planning and financial documentation for multiple concurrent programs while coordinating event execution and meeting organizational deadlines

SKILLS & INTERESTS

Technical: SQL, MySQL, NoSQL, Python, Java, PHP (OOP & MVC), Node.js, REST APIs, JWT Authentication, Git, GitHub, HTML5, CSS3, JavaScript, Figma, Tableau

Data & Analytics: Data Analysis, Dashboard Reporting, KPI Analysis, Data Visualization, Business Intelligence, Web Analytics, Google Analytics, Google Search Console, Trend Analysis, Competitor Analysis, SEO Analysis

Soft Skills: Leadership, Team Collaboration, Project Management, Problem Solving, Communication, Time Management

Language: Indonesian (Native), English (Intermediate, actively improving), German (Beginner, currently learning)
